

Rob Walrecht
Helps you understand the universe!

Rob Walrecht: Planisphere Specialist since 1982

The Perfect Guide to the Stars
for Your Visitors, Customers and Students!

Customized and Standard Planispheres

Now also available in full color,
for marking the spectral class
of stars; or make deep-sky
objects stand out better;
or just to improve the
readability of names.
The picture shows
some examples,
with half of the
text parts in
yellow.

This is just one
design of the star
chart. Our motto is:
anything is possible!

Rob Walrecht's Planispheres:

Most extensive planisphere program in the world:

- ★ 14 different languages
- ★ English planispheres for 10 different latitudes, together covering the entire populated world

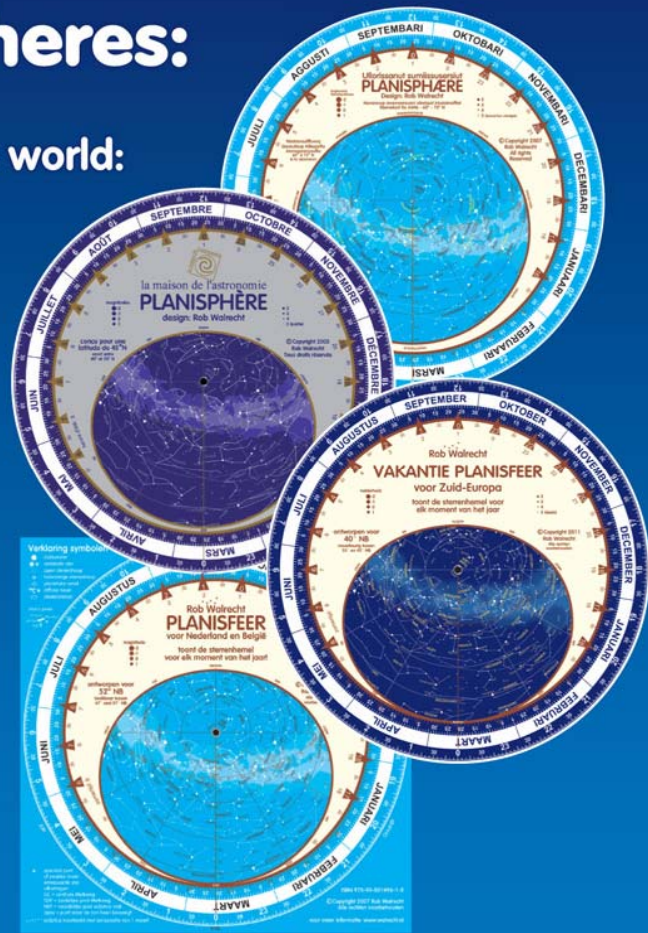

Highly accurate design, featuring:

- ★ about 700 stars and 300 objects for binoculars
- ★ a realistic Milky Way
- ★ interesting celestial features like ecliptic and galactic poles and centres, and Solar apex
- ★ an ecliptic divided into the positions of the Sun for every day of the year
- ★ right ascension and declination features

Customized planispheres:

- ★ for planetariums, museums, universities, schools, stores, companies and other institutions
- ★ with YOUR logo and information
- ★ with the text you need (in any language)
- ★ for the latitude and even longitude you require
- ★ in the colours, design, shape and size you want
- ★ with your own text
- ★ wonderful for your visitors, students, readers, customers
- ★ anything is possible...
- ★ and for a very affordable price!

We have published more products than planispheres, like books, posters, build-it-yourself star wheels and sundial, and a unique Solar System scale model. All these products can be customized and translated, to provide wonderful, instructive items for your organization.

Above: several of our planisphere designs, in 25 cm/10 inch, round and square.

Below: a few smaller versions, of 17.5 cm/7 inch.
